

CORONA VIRUS SITUATION – PLEASE READ

We respectfully ask for the safety of our clients and everyone associated with Eurovision Images that the following guidelines are adhered to.

We will take all precautions, wearing masks and washing our hands both before and after the shoot. We will bring only the equipment deemed necessary and make sure it has been cleaned before entering the location.

1. Everyone involved should wear a mask and adhere to social distancing guidelines.
2. We must be the only ones in the location at the time and prefer that the site to have been empty for 24 hours, though realize this is very often not possible.
3. We will not enter a location where there has been anyone sick or quarantined during the previous 7 days.
4. Pre-preparation is particularly important at this time so we can accomplish the shoot as quickly as possible while minimizing the touching of any object. We advise clients to communicate the important photographs needed so we can accomplish your goals.

We appreciate your understanding and will relax these guidelines once circumstances allow.

Please contact us with any questions.
